

EcoTek®

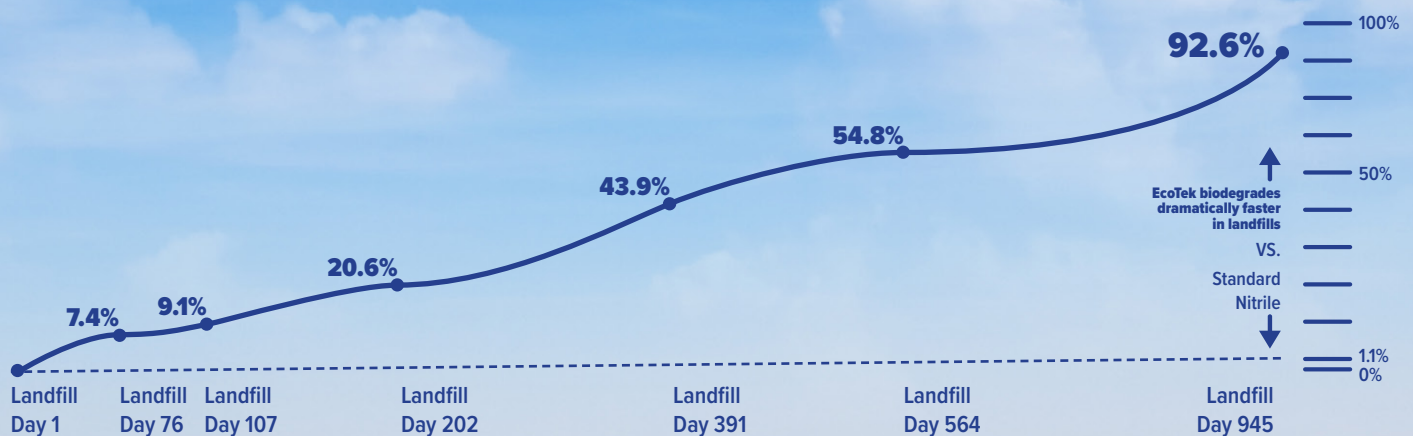

BIODEGRADABLE TECHNOLOGY*

SW can help you meet your zero waste goals by providing a truly sustainable option. Nitrile gloves trashed in landfills will take centuries to biodegrade, however with EcoTek there is a sustainable technology built right into the glove. Try SW gloves, reduce your landfill impact and help achieve a Sustainable World.

What is EcoTek?

EcoTek is a proprietary SW® formula that enables nitrile gloves to break down (or biodegrade) in landfills over a much shorter time than untreated gloves.

It is the industry leading nitrile treatment, breaking down a nitrile glove in landfill by 92.6% in only 2.5 years without any glove performance loss.

Feel the difference.™
